## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner respectfully agrees with Applicants' arguments on pages 10 and 11 of their amendment filed January 23, 2006 stating that the addition of the structural limitations of "the stand comprising a set of legs...engaging the floor and *automatically deploying* from the storage position to the use position *in response to the patient support lowering the engager, the equipment support, and the stand downwardly*" to independent claim 1 and "at least a portion of the support arm *being situated beneath the intermediate frame* when the equipment support is in the transport position" to independent claim 6 as well as the particular structural correlation between the vertically-adjustable equipment support, patient support and stand as recited in independent claim 29 overcome fully the prior art rejections contained in the Office action filed October 21, 2005. Moreover, Applicants' amendment rewrites claims 9, 10 and 15 into independent form; these claims were indicated in the previous Office action as containing allowable subject matter. Since independent claim 18 as allowed in the prior Office action and a review of the cited prior art as well as an updated search of the prior art did not yield any other references which are regarded as disclosing the instant invention as claimed, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
